

Your Reliable Partner for Infor ERP Integrations

HubKor is a cloud-based integration platform that sync tightly between many best-of-breed Cloud applications to Infor cloud and On-prem ERP Solutions.

ALERAN SOFTWARE is a fully integrated end-to-end digital commerce platform designed to accelerate sales for B2B manufacturers, wholesalers, and distributors. Aleran makes it easy and efficient to digitize sales and orchestrate multi-channel sales and personalize buying experiences, reducing the time to sale and cost of sales through eCommerce, Customer Portals, and more.

Integration Overview

Streamline your workflow with a **2-way sync** that tightly integrates CRM automation processes with Infor ERP, delivering a complete 360° view in Aleran—from opportunity to order shipment.

Item Management

Efficiently sync products for initialization or obsolescence.

Inventory Management

Sync product quantity availability or leverage optional real-time API calls.

Pricing Sync

Sync list pricing or use real-time API calls to apply ERP pricing rules.

Customer Orders

Automatically create Aleran orders with header and line details, handling bundles, kits, and discounts. A new HubKor form in ERP ensures error handling, ERP updates, including sales order status and shipment details, are passed back to Aleran.

Customer Management

Set up customers as guest or recurring accounts. B2B customers can sync from ERP to Aleran, and new Aleran customers can be synced back to ERP. Sync contacts between Aleran and ERP for streamlined management.

Customer Ship-To

Create shipping addresses on the fly for guest or customer accounts.

Payments & Credits

Apply customer payments upon order creation or shipment. Easily create and apply credits to original orders. Utilities are available to reapply prepayments upon invoicing and manage credit issuance.

Shipments

Notify Aleran to fulfill customer orders upon shipment and trigger automatic emails to customers. Capture payments if set to do so at the time of shipment.

Multi-Store Support

Supports multiple Aleran stores, sites, and currencies for a global reach.

Services Provided

- Hosted on AWS Platform to offer **scalability, reliability, and security**.
- Fully managed **end-to-end Service** provided by ERP and Aleran experienced professionals.
