

Your Reliable Partner for Infor ERP Integrations

HubKor is a cloud-based integration platform that sync tightly between many best-of-breed Cloud applications to Infor cloud and On-Prem ERP Solutions.

BIGCOMMERCE is a cloud-based e-commerce platform designed to help businesses create and manage online stores. Founded in 2009, it offers a comprehensive suite of tools and features to support businesses in selling their products online, either through their own websites or across various marketplaces.

Integration Overview

Seamless 2-Way Sync for E-Commerce and Infor ERP
 Automate your e-commerce process from order placement to shipping and payment capture, ensuring efficiency at every step.

Product Sync

Automatically update product status between BigCommerce and ERP.

Inventory

Keep stock levels accurate with quantity sync or optional real-time API availability checks.

Pricing

Update standard prices or use real-time API to apply ERP pricing rules.

Order Management

Create detailed orders in ERP from BigCommerce, handling bundles, kits, and discounts.

Customer Sync

Manage guest and recurring accounts, with B2B options to sync ERP data to BigCommerce.

Shipping Addresses

Auto-generate addresses for guest and customer accounts.

Payments & Credits

Apply payments on order creation or shipment, with utilities for credits and prepayments.

Shipment Updates

Notify BigCommerce upon shipment to fulfill orders and capture payments.

Scalable Options

Supports multiple stores, sites, and currencies.

Services Provided

- Hosted on AWS Platform to offer **scalability, reliability, and security**.
- Fully managed **end-to-end Service** provided by ERP and BigCommerce experienced professionals.
