

# Your Reliable Partner for Infor ERP Integrations

HubKor is a cloud-based integration platform that syncs tightly between many best-of-breed Cloud applications to Infor cloud and On-prem ERP Solutions.

**DataRails** is an AI-powered FP&A platform for Microsoft Excel users that automates manual processes, consolidates data, and enables real-time scenario analysis. It enhances financial workflows like reporting, forecasting, and revenue management, all while letting finance teams work within their familiar Excel environment.

## Integration Overview

Seamlessly connect financial data from Infor ERP to DataRails with a robust 1-way sync, ensuring streamlined integration for accurate, consolidated financial insights and reporting.

### Accounting Period Sync

Ensure seamless syncing of accounting periods from Infor ERP to DataRails for accurate and up-to-date financial reporting.

### Ledger Transactions

Transfer detailed ledger transactions effortlessly, enabling comprehensive financial tracking and analysis.

### Detailed and Summary Period Balances

Access both granular and consolidated views of period balances for flexible financial oversight and decision-making.

### Detailed and Summary Trial Balances

Streamline financial reviews with detailed and summary trial balances, ensuring accuracy and clarity in reports.

## Services Provided

- Hosted on the AWS platform for unmatched **scalability, reliability, and security**, or available on-premises to suit your unique business requirements.
