

Your Reliable Partner for Infor ERP Integrations

HubKor is a cloud-based integration platform that sync tightly between many best-of-breed Cloud applications to Infor cloud and On-Prem ERP Solutions.

Eureka is a pre-built Power BI platform designed to integrate seamlessly with Infor's cloud and On-prem ERP solutions. It leverages Power BI's capabilities to simplify data analysis, enabling businesses to streamline operations and gain real-time insights. With powerful automation features, Eureka enhances decision-making by providing dynamic visualizations and interactive reports for a deeper understanding of financial and operational data.

Eureka BI Dashboards

Business Intelligence dashboards tailored for Infor Syteline ERP, offering actionable insights.

Seamless Integration

Easily connects to Syteline cloud (via Hubdata connector) or on-premises through the Power BI gateway.

Interactive Reporting

Create custom reports, visualizations, and dashboards for deeper business insights.

Hubdata Managed Service

Connects your cloud Syteline ERP to Azure SQL Data Storage for real-time data replication into Power BI.

KPI Trend Analysis

Track key metrics like backlog and inventory trends with real-time snapshots.

Eureka Personalization

HubKor's BI team offers cost-effective customization to tailor Eureka dashboards to your business needs.
