

Your Reliable Partner for Infor ERP Integrations

Hubkor is a cloud-based integration platform that sync tightly between many best-of-breed Cloud applications to Infor cloud and On-Prem ERP Solutions.

COMMERCE is an open-source eCommerce plugin for WordPress that makes creating and managing online stores simple and customizable. Built by Woo and supported by a global developer community, it enables seamless 2-way integration between Shopify and Infor ERP, automating orders, shipping, and payments.

Integration Overview

Seamless 2-Way Sync for E-Commerce and Infor ERP

Automate your e-commerce process from order placement to shipping and payment capture, ensuring efficiency at every step.

Product Sync

Automatically update product status between WooCommerce and ERP.

Inventory

Keep stock levels accurate with quantity sync or optional real-time API availability checks.

Pricing

Update standard prices or use real-time API to apply ERP pricing rules.

Order Management

Create detailed orders in ERP from WooCommerce, handling bundles, kits, and discounts.

Customer Sync

Manage guest and recurring accounts, with B2B options to sync ERP data to WooCommerce.

Shipping Addresses

Auto-generate addresses for guest and customer accounts.

Payments & Credits

Apply payments on order creation or shipment, with utilities for credits and prepayments.

Shipment Updates

Notify WooCommerce upon shipment to fulfill orders and capture payments.

Scalable Options

Supports multiple stores, sites, and currencies.

Services Provided

- Hosted on AWS Platform to offer **scalability, reliability, and security**.
- Fully managed **end-to-end Service** provided by ERP and WooCommerce experienced professionals.
